LAST DRAFT OF NOTE IS SUBMITTED

President and His Cabinet Agreed Upon Reply to Germany

WHICH WILL BE SENT IN A DAY OR TWO

NO OFFICIAL COMMENT

Will Be Made Until Document Actually Has Been Received in Berlin, and It is Not Certain That the Orduña Incident Was Even Mentioned—No Tension Manifest.

(Associated Press Telegram) Washington, July 20.—President Wilson and the cabinet, after two hours' discussion today, approved a final draft of the note to Germany. Cabinet officers refused to discuss its contents or to intimate how the insistence of the United States to obtain a definite answer to its representations on submarine warfare had been phrased.

The new note will be ready in a day or two for dispatch to Berlin. Some changes suggested in today's meeting will be incorporated and after careful revision by Secretary Lansing it will be cabled to Ambassador Gerard. Publication will be withheld until the note actually has been received in Berlin.

There was no manifestation of tension in official quarters, the confidence prevailing in the absence of any new violation of American rights the situation would not become immediately dangerous. Some officials were impressed, however, that the attack on the British steamer Orduña resulting in the loss of Americans, had introduced a new set of circumstances, showing that even on voyages from Europe to the United States submarine warfare as being waged by Germany, subjects neutrals to constant risks. It is not certain, however, that any reference to the Orduña case will be made in the new American note.

SHIPS COLLIDE; ONE DROWNED; CREW IS SAVED

(Associated Press Telegram) London, July 20.—The British steamer, Polish Prince, from New York, June 17, has been sunk in collision with the Lowther Range. One man was drowned, the remaining members of the crew being landed today at Barry, by the Lowther Range. The latter was damaged about the bow.

The Polish Prince was of 1862 tons net. From New York she went to the West Indies and thence to Queenstown, where she arrived on July 14. The Lowther Range sailed from Manchester, England, on July 15 for Montreal.

SOUTH WALES COAL STRIKE WAS SETTLED

(Associated Press Telegram) London, July 20.—The South Wales coal strike has been settled. An agreement to end it was reached today.

BURGLARS BLEW SAFE.

(Associated Press Telegram) Marion, Ohio, July 20.—Burglars blew the postoffice safe at Marengo, Morrow county, early today, and escaped with \$200 in cash and a large amount of stamps. Columbus bloodhounds were put on the trail.

GARIBOLDIANS SWEAR TO DEFEAT AUSTRIANS OR DIE IN ATTEMPT.

(Associated Press Telegram) Udine, Italy, Monday, July 19.—(Via Paris) Colonel Peppino Garibaldi, his four brothers, and a number of other officers, who served with him in the regiment of Italian volunteers, which fought with the French army in the Argonne earlier in the war, have reached the Italian front in the Cadore region. They have been attached to the Alpine brigade formed by the grandfather of the Garibaldi brothers, the famous Italian patriot in the war against Austria in 1866.

The Garibaldians have taken an oath to defeat the Austrians or die in the attempt.

Twenty Thousand American Freight Cars and 400 Locomotives are Due in Russia in 2 Months; May be Too Late

(Associated Press Correspondence.) Vladivostok, June 25.—Twenty thousand American freight cars and four hundred American locomotives are due here from the United States within the next two months to relieve the congestion of supplies destined for the Russian armies at the front. The army corps on the German-Austrian battle line needs guns, rifles and ammunition; Vladivostok will supply them. They need armored cars, many hundreds of them, and Vladivostok will give them these. They need dynamite; they need pig lead, and pig copper; they need cloth to be made into clothing and Vladivostok will see that they get it all. The guns and rifles and ammunition are arriving from Japan and the United States by the steamer load. The armored motor cars are coming by the hundreds from the United States. They are being made at Detroit and Cleveland and other points and they are coming out here mostly by way of Seattle on vessels which will sail direct to Vladivostok. So also is the lead, copper and dynamite. As for the cotton, it is coming out from New York, via Panama in such vast quantities that more than anything else it has caused this terrific congestion of supplies which has forced Russia to place rush orders for locomotives and cars to get them off to the front. It is piled high on the hills back of the city, waiting for its turn to be forwarded to Moscow and other cities to be used to manufacture into blankets and uniforms for the soldiers.

From Great Britain have come guns for the navy. They arrive by steamer and then they are shipped by rail-road to the Black Sea to be mounted on the war ships Russia is building. From France has come ammunition from the United States have come several 3-inch guns—also to find their

place on Russian warships in the Black Sea. And above all, is coming barbed wire from America—an amazing quantity of it—to protect the trenches of the Russian armies. Ships bringing these vast supplies are arriving in such numbers and with such rapidity that they cannot be accommodated at the docks. A plan of permanent enlargement of the port has been temporarily put aside in favor of provisional enlargement. Huge gangs of men are building pontoon piers and making make-shift docks. Vessels unable to squeeze into the piers, are transshipping their cargo to lighters, but a shortage of lighters has retarded even that means of discharging. So the Russians are building more lighters.

Vladivostok, they believe is to save the day for the Russian army and every possible human effort is made to forward these precious supplies to their destination at the front.

The feverish activity at the water front is duplicated elsewhere in this great port, which, while peaceful in itself, is the very incarnation of war. Every month new armies are sent away to the west. For five hundred miles to the north of the fortress of Vladivostok proper, extends a series of fortified places. All these when not used as prisons for German prisoners of war, serve as drill grounds for Russian recruits. The reservists come in from all points in the eastern part of the empire and within six months are turned into soldiers. Then they are hurried off across Siberia.

The mushroom war growth of Vladivostok as a port of commerce together with the extra occupation of looking after detained civilians and the interests of the prisoners of war, has given the American consulate great prominence and responsibility as well as work.

plant. All six were said to be destined for England.

The men who struck today made no demand for increased wages, but it is thought likely that they will do so before they return to work. At present their strike is of a sympathetic nature.

STANDARD OIL PLANT CLOSED; EMPLOYEES QUIT

DISORDER PREVAILED AT BAYONNE, AND POLICE SHOOT OVER STRIKERS' HEADS.

None, However, Was Injured—Strike is one of Sympathy—Many Men Affected.

(Associated Press Telegram) New York, July 20.—The Bayonne plant of the Standard Oil Co. of New Jersey was closed down today, following a strike of about 1000 still cleaners and barrel makers for increased wages and the fact that about 4000 other workmen refused to go to work either through sympathy, as claimed by the strikers, or intimidation, the view given by the company's officials.

The order to close down was given by General Manager George B. Gifford, and the few scores of men who had entered the plant, willing to work, were sent home. It was said that the company had sufficient supplies on hand or within reach to permit the plant to be idle for a year. Some serious rioting, which occurred early today, it was said, was a factor in influencing the shut-down.

Several hundred men alleged to be strikers and their sympathizers took part in the disorder today. They first tried to stop men who were willing to work, from going into the plant and then attacked a detail of police who were on the ground to prevent disorder. Inspector Daniel Cady, who was in command, ordered the police to charge with clubs and drawn revolvers. Dozens of shots were fired over the heads of the rioters, and before this, and the threatening night sticks, the crowd drew back. No one was seriously injured, but six arrests were made.

At the adjoining tidewater oil plant the men are still at work, but they are said to be restless and the strikers say they will shortly join them. If they do the entire production of oils and gasoline with naphtha as well as the by-products will stop.

There was some disorder at the Standard Oil plant this morning when a few of the men insisted upon going to work. Some shots were fired, but apparently they were intended only to add to the noise and excitement as no one was reported hit. The police made six arrests.

Director of Public Safety Henry Wilson of Bayonne sent almost the entire police force of the city to the plant. If there is further disorder, Mr. Wilson will ask his fellow commissioners to vote money for special police.

The strike trouble at the works first appeared last week, when the still cleaners, a comparatively small part of the working force, went out because their demand for an eleven percent increase in wages was not granted. They were followed yesterday by the men in the barrel shops, 90 in number, who had asked for a 15 percent increase. Today the rest of the employees refused to go into the works.

The strike puts an end for the time being to the loading of case and barrel oil for Europe. There are six steamers now tied up at the piers in the Kill Von Kull, which skirts the

FAMINE AGAIN FEARED

In the Capital As Railroad to Vera Cruz is Put to Military Use—Fighting is Renewed in the North and Mexican Situation Again Considered Very Grave at Washington.

(Associated Press Telegram) Washington, July 20.—Renewed military activity in Mexico was causing officials here some concern today. With Carranza troops leaving Mexico City to battle approaching Villa forces and food supplies again cut off from the capital by military use of the railroad to Vera Cruz, it was feared here hunger would again menace civilians.

Meanwhile, news of the renewed fighting in the north is reaching here. Carranza forces were declared to have taken Naco, Sonora, on the border and an army of the first chief is reported moving on Cananea and Nogales.

Latest official reports received here said that most of the Carranza forces under General Gonzalez had evacuated Mexico City and were speeding northward to engage the Villa forces who were approaching the capital, after having taken Pachuca, 40 miles distant.

The situation surrounding the Mexican capital is regarded in official circles as very grave and further developments are eagerly awaited.

POPE BENEDICT AGAIN DENIES AN INTERVIEW

PUBLISHED IN FRANCE IN WHICH HE SAYS HE WAS MISQUOTED.

Pontiff Was Represented as Declining to Comment on the Invasion of Belgium.

(Associated Press Telegram) Paris, July 20.—An autograph letter from Pope Benedict to Cardinal Amette, archbishop of Paris, contains the following: "We absolutely disavow Latapie's article which represents neither our ideas nor words, and was published without our permission."

The pope repeats his previous declaration that his views are to be found in public official statement and not in accounts of private conversations. To make his attitude still clearer, the pope enclosed a copy of an interview given by Cardinal Gasparri, papal secretary of state, to the Corriere d'Italia of Rome and letters of the Cardinal to the Belgian and British ministers to the Vatican, the former condemning the invasion of Belgium and treatment of the clergy and the latter affirming that the pope never pronounced against the legality of the blockade of Germany.

Pope Benedict's letter was in reply to a letter from Cardinal Amette, who said that the Latapie interview had produced a painful impression in France.

La Liberte of Paris published on June 21 what was described as an interview with Pope Benedict obtained by Louis Latapie. The article attracted world-wide attention because of sentiments attributed to the pope. Among other things, the pope was represented as declining to comment on the invasion of Belgium, on the ground that it occurred under the pontificate of Pius X, as taking the position, when questioned as to reports of alleged cruelties on the part of Germans, that similar acts were said to have been committed by other nations and the Vatican was not a court to give judgement on contradictory assertions; and as asserting the Italian government had taken twenty members of the Vatican guard and that letters addressed to the Vatican had been opened by cen-

Greatest Arms Works May Be Closed By Strike

Claude Kitchin, Democratic Leader of House of Representatives

This is just a small part of the great plant. It covers 102 acres and great Remington arms works at Bridgeport, Conn., which may be closed by a strike, due, it is declared by some partisans of the allies, to German influence. Claude Kitchin, leader of the House of Representatives, has gone from Washington to make an investigation.

The Remington Company is constructing here, because of enormous contracts obtained from the allies, a

workers in the plants of the Remington Arms and Ammunition company, and various plants of the sub-contractors, were circulated. One of the editors of the papers still denied they had received any inspiration for the article printed. He reiterated his statement of last night that the Hungarian workers were entitled to share in the immense profits being made by the war munition factories. That idea alone, he said, was responsible for the agitation.

The action may precipitate, according to labor leaders, a far-reaching strike, that eventually may spread throughout New England and cause serious curtailment of the manufacture of war materials.

All efforts to settle the complicated labor troubles so far have failed. "Neither Samuel Gompers nor the president of the United States can stop this strike now," said J. J. Keppler, international vice president of the Machinists' union.

Mr. Gompers, as head of the American Federation of Labor, has called a conference of machinists' officials at Washington, but those in charge of the situation here assert they will not heed the call.

Within a week, according to plans of labor leaders, all work in the Remington shops and in the factories of sub-contractors will be at a stand still. There are from 8,000 to 10,000 persons employed by the Remington company and it is estimated that including other local factories, 25,000 or more would be thrown out of work.

In addition to the new plant of the Remington Arms and Ammunition company, strike calls were today issued for the machinists working in the Bridgeport Engineering company, the Columbia Nut and Bolt company, and the Gaynor Manufacturing company. The men were to walk out at noon. Less than a 1000 machinists are employed in the three last named plants.

While labor leaders announced today that approximately 1000 machinists employed in the shops of the Remington Arms and Ammunition company and four sub-contractors had walked out on strike, indications were that difficulty in accomplishing the act of the union men had been experienced in some of the plants.

An official of the Remington company denied emphatically that any of the men in that plant had walked out. "Rumor had it that Major W. C. Penfield had offered the machinists an eight hour day with other concessions and that they had decided to remain." Sub-contractors, on the other hand, admitted that all of their machinists had walked out.

Among the sub-contracting firms admitting that their men had struck were the Gaynor Manufacturing Co., making bullets for the armies of the allies, and the Columbia Nut and Bolt Co. These concerns employ between them less than 200 men.

Agitators today were going among the great number of Hungarian workers of Bridgeport, urging them to attend a strike mass meeting called for tonight. More copies of a Hungarian newspaper, containing articles advocating the walkout of the Hungarian

RUSSIAN ARMIES, FACING DISASTER, STILL RESIST TEUTONS

BUT POSITION HOPELESS

In View of Military Critics of Even Their Allies—Von Hindenberg Co-operating With Austrians Who Have Crossed Bug River—Russian Retirement Predicted.

(Associated Press Telegram) London, July 20.—The uppermost question concerning the eastern campaign now is when Warsaw will be evacuated, rather than whether it will be given up. With virtually all of Courland in the hands of Field Marshal von Hindenberg and with the Austrian-German forces across the Bug, continued occupancy of the Polish capital exposes the Russians to the danger of disaster.

Through Copenhagen comes a report of the occupation of Windau by the Germans. This menace to the Russians from the north is paralleled from the southeast by the advance of the Teutonic allies on the Lublin railroad, one of the chief arteries of communications with Warsaw.

The wisdom of abandoning the Warsaw salient in favor of a straight Russian line, daily becomes a more definite subject of speculation among the allies, and Russian retirement from the capital before it is invested completely is predicted widely.

From Windau, the Germans are reported to be advancing towards Riga, with the intention of seizing that port and clearing the nearby seas of mines, thus obtaining another naval base.

All the glory has not gone to von Hindenberg as his colleague Field Marshal von Mackensen, is credited with the capture of Krasnovav.

On the western front, the Germans apparently are content to maintain a series of sporadic attacks on various portions of the line. Paris claims the Germans suffered severe losses in an unsuccessful assault on the heights of the Meuse.

The coal strike is described in dispatches from the mine fields as being more hopeful today.

OBTAINS CLUE OF MYSTERIOUS LETTER WRITER

(Associated Press Telegram) New York, July 20.—William J. Flynn, chief of the United States Secret Service had in his possession today photographic copies of a letter signed, apparently by the mysterious "Pearce," of New Orleans from which he had obtained a clue that might lead to the identification of the writer. The letter, received yesterday by the Brooklyn Eagle, was addressed to Americans to keep clear of British vessels sailing from New York and several other ports. It was dated at New Orleans, July 18. Chief Flynn said that the letter was written on a typewriter defective in that it drops slightly the letter "r."

WAIVED EXAMINATION AND WAS BOUND OVER IN SUM OF \$6000.

Statement Made by Attorney for Defendant, Who Today Was Arraigned Before Mayor.

Addison L. Rawlings, former local piano dealer, arrested three weeks ago on charges of forgery and altering notes by changing dates, appeared for hearing, Tuesday afternoon, before Mayor Bigbee. By his attorney, W. D. Fulton, he waived the reading of the affidavits, and waived the preliminary hearing. He was held to the common pleas court under bond in the sum of \$1000 in each of the six cases on which he was arraigned. The total bond of \$6000 was furnished, Messrs. George W. and William Lane, Mrs. Cora B. Rawlings and William M. Koons of Mt. Vernon, signing the bond as surety.

The six affidavits on which Rawlings was arraigned were signed by Cincinnati men, five being signed by John S. Thornton and one by H. L. Bartlett.

Prosecuting Attorney Joseph W. Horner and Attorney J. Howard Jones appeared for the state. W. D. Fulton, attorney for A. L. Rawlings, made the following statement after the hearing: "The people who filed the six affidavits against Mr. Rawlings are representing the Cincinnati Discount company. Mr. Rawlings has been dealing with this company for a number of years and the figures since January, 1907, show that Mr. Rawlings has paid to this company \$130,302.97; that about \$50,000 of this is for interest and discounts. So that it can be seen that if the golden rule was applied Mr. Rawlings does not owe these people one cent and they are claiming that he owes about \$18,000."

"The figures that I am giving are only about one-half the dealings with this concern at that. I have gone over Mr. Rawlings' book accounts and find that nearly all the companies that he has dealt with have made large amounts of money off of Mr. Rawlings. This is not true, however, of Messrs. Swisher, or D. M. Jones, and others of Newark, they have not been paid back, but when all the facts come out in this matter I am sure it will show that Mr. Rawlings did not profit anything."

CONSCIENCE FUND AUGMENTED BY A \$10,000 PAYMENT.

(Associated Press Telegram) Washington, July 20.—Ten thousand dollars in currency, the second largest contribution to the "conscience fund" ever received by the government, arrived at the treasury department today in a plain envelope, mailed yesterday at New York, accompanied by an unsigned letter, saying: "The sender has paid double to the United States the amount he stole, and still conscience is not satisfied. Here is another payment."

Treasury officials found nothing to indicate any of the government's losses by fraud or theft.

MILLIONS
OF DOLLARS MAY BE RECOVERED BY AMERICAN CITIZENS FROM GERMANY.

For Requisition of Property in Belgium, Northern France and Poland; Instructions as to Claims.

(ASSOCIATED PRESS TELEGRAM)
Washington, July 29.—Official instructions to Americans who desire present against Germany claims growing out of its requisition of property in Belgium, Northern France and Poland, have been sent out by the state department. Millions of dollars worth of property are understood to be affected. The United States has been officially advised of the German government's creation of the "imperial indemnity commission," to consider claims for compensation for property requisitioned in enemy territory occupied by German military forces.

The rules of procedure require that the commission's proceedings shall be conducted in German and that documents submitted in any other language will be considered only when accompanied by certified German translation. Numerous claims have been already presented and pressed for action by the department. They include a variety of articles of considerable value but of a luxurious character seized by the Germans in Belgium on the pretext of being needed for the army of occupation and then shipped back to Germany.

The department does not accept in principle the taking of property that does not come under the head of necessity.

Claims of Americans are being filed by Ambassador Gerard with the German foreign office for presentation to the commission.

City to Construct Garage Rear of City Hall; Cost of Street Paving Discussed

The city of Newark is growing aristocratic. It has joined the automobile class and has found that it owns so many motor machines that it is necessary to construct a building for the exclusive use of its machines. A resolution was adopted by council Monday night authorizing the service department to construct a garage in the rear of the police department, to cost about \$1000, to house the various machines.

The service department now owns two machines besides the street flusher, which is operated with a gasoline engine. In explaining the need of the building, Service Director Christian stated that the safety department was about to purchase another truck for the use of the hydrant repair man and that it was wise to house all the machines in one building.

It will be two stories in height, the second floor providing accommodations for the meter-repair department.

This feature of the council meeting, with the statement of Mr. Christian regarding the bids received a few days ago for the paving of Gay and Buena Vista streets, were the high lights in Monday night's meeting. Regarding the paving bids, Mr. Christian explained that the service department was somewhat surprised at the difference in cost of "Tarvia" paving as compared with the usual brick paving.

He read from the tabulated bids the figures for the various forms of paving and asked council's instructions regarding the kind of material which shall be used. It was the opinion of council that the property owners should agree on the material before council authorized any action.

Despite the high temperature which prevailed throughout the day, the Council chamber was cool and pleasant. All councilmen were on hand when the meeting was called to order. Auditor Dodd, Treasurer Frye, Solicitor Norpell, Service Director Christian, and Safety Director Dayton were also present.

President Keller and Clerk Woodward got the preliminaries out of the way and went after the small amount of business on the clerk's desk.

The street committee in its report, recommended the paving of Linden avenue, when sewers and water mains are installed; recommended certain improvements in the proposed Park addition before it is accepted; that a good grade be established for sidewalks in Twelfth street and that the Poplar avenue sewer be constructed jointly with one in Harrison street.

The law committee reported unfavorably upon the claim for damages made by Hugh Debord for alleged damage to his sewer.

Service Director Christian submitted the following report on the water works:

(ASSOCIATED PRESS TELEGRAM)
Geneva, Switzerland, July 29.—(Via Paris).—Dispatches to the Tribune say that large gains have been made by the Italians since July 16. According to these advices, the Austrians have lost more than five miles in Cadore and Kellerwald on the Iznaso. The Austrians have recaptured two positions near Tolmino and north of Sanluca.

The Tribune also publishes a dispatch from the Russian front saying that on the night of July 17-18, a fierce hand-to-hand encounter occurred on the Rawka river in Russian Poland. After 15 hours of fighting, the Russians forced their opponents back several miles, capturing several hundred prisoners.

All these horses have performed in the matinee races here and they will be watched with interest by lovers of horse racing.

Any Woman Can Now Have Pretty Curly Hair
(From the World)
Who'd have thought so simple a thing as applying ordinary liquid stiline could convert straight hair into such pretty curly locks in a single night! The girl who made this discovery is sure to be entitled to a rising vote of thanks. Not only we need do so to wet a brush with this harmless liquid at night, draw this through the hair, and in the morning we find it has dried in just the sweetest waves and curls.

It's good news, indeed, that we can now dispense with the destructive waving tongs forever! The curliness is so much more natural looking where it's so much more becoming. It's softer, glossier, and more beautiful. When it is so easy to secure a few ounces of it from the druggist—which will keep the hair in curl for weeks—there's no reason now for any one putting up with straight, straggly or scorched, dead-looking hair.

ABANDONED

TOURING CAR DISCOVERED AND TWO LAIDS WERE ARRESTED SOON AFTER.

Confessed They Had Stolen Car in Dayton and Drove it to Columbus Monday.

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., July 29.—Gore Williams and Leroy Walker, two 17-year-old Cincinnati youths, were arrested early today by Officer Mahoney, in the Big Four Railroad yards, within a few minutes after having abandoned a six-cylinder Hudson touring car, near the corner of Spruce and 11th streets.

Under severe questioning by Night Sergeant Ambros the boys finally broke down and admitted that they had taken the car from Dayton and driven it to Columbus. The machine, owned by Charles S. Hall of Dayton, was driven to the prison garage, where it will be held for its owner. The boys are being held at the county jail awaiting action by Dayton authorities.

According to the story told by the youths, they left their homes in Cincinnati early Monday morning on a freight train, reaching Dayton late in the afternoon. Then they appropriated the machine and drove it to Columbus, making several stops enroute. Fearing that the gasoline supply in the machine might be exhausted and having no money with which to purchase more, they decided to abandon the car and start for Cleveland on a freight train.

ITALIAN NAVY AND AIRCRAFT CO-OPERATING

LOSS OF OLD CRUISER GIUSEPPE GARIBOLDI CONFIRMED IN ROME REPORT.

Cutting Cables and Damaging Supply Depots Keep Part of King Victor's Armies Busy.

(ASSOCIATED PRESS TELEGRAM)
Rome, Monday, July 19.—(Via Paris, July 20).—The following statement was given out at the ministry of marine here today:

"Since the last statement of July 7, the navy has intensified its action in co-operation with the aerial service against the enemy's coasts in the lower and upper Adriatic.

"The fleet operations were carried out.

"In the Dalmatian archipelago: Cutting cables near islands which on account of their proximity to our coasts, constituted offensive centers for observation for the enemy; destruction of depots for revictualing barracks, factories and torpedo boats on one of the islands and the capture of a few prisoners.

"At dawn on the 18th a division composed of the old cruisers, Verzeze, Francesco Ferruccio, Giuseppe Garibaldi, and Vettor Bisanini, approached the waters of Cattaro, manifesting its presence by bombarding and seriously damaging the railroads and the locality, while other warships, acting against Gravosa, destroyed a machinery depot, the barracks and several other military buildings and landed a party which made a reconnaissance on Giuppana Island. Enemy cruisers which had taken refuge at the Cattaro base, which although of obsolete type, could have offered opposition to our old cruisers, did not come out from the port, but nevertheless kept up steam. While our ships were drawing off, they made an attack by submarines and the Giuseppe Garibaldi, after avoiding the first attack, was struck by a torpedo and sunk.

"The crew preserved discipline and behaved with coolness, shouting several times: 'Long live the king!' before jumping into the sea in obedience to orders. Most of them were saved.

"Among the most remarkable aerial operations must be cited the bombardment of one of our dirigibles on the 17th of Trieste. The technical establishment was badly damaged in the previous raid of the fourth. This time bombs thrown on these important workshops started a fire so extensive as to be visible 20 miles away.

"Our seaplanes dropped bombs on Austrian destroyers protecting Fasana canal, near Pola. Two other seaplanes bombarded the battery near the Salvore lighthouse on the 14th. One of our dirigibles bombarded with excellent results the Trignano station and Trieste railroad yards at Monfalcone on the 16th.

"On the 17th an enemy seaplane belonging to a small squadron which flew over Bari and Barlette was captured with two officers."

RUSSELL BOY FASTER THAN THE FAVORITES

He Paces Fastest, Mile Yet Recorded
in Edwards Stake in Cleveland's
Grand Circuit.

Cleveland, O., July 20.—Three favorites were returned winners, one outsider threw a panic into the talent, the fastest opening heat in the history of the Grand Circuit was trotted and a 2-year-old trotting record of 2:13 1-4 was established yesterday in the opening at North Randall of the first 1915-clash of the Grand Circuit campaign.

The Edwards stake for 2:10 pacers produced the sensation of the day when Russell Boy, a rank outsider, captured the honors in four heats. Incidentally he wiggled the fastest mile ever made in the stake when he went the second heat in 2:03 3-4. He barely escaped the flag in the first heat. Hal Boy, favorite in the race, finished fourth. Hal S drew the place position. Only heat winners appeared for the fourth heat and the judges, not under the impression that McDaniel was not trying to win, but because they thought Russell Boy would do better with a more experienced driver, called on "Pop" Geers. The veteran driver carried Russell Boy to a break at the head of the stretch and won the heat and race, pulled up.

The greatest interest of the day, outside of the Edwards stake, centered in the action of the two pastime trotters, Lee Axworthy and Volga, favorites, respectively, in the 2:08 trot and the 2-year-old trotting sweepstakes. Both were straight heat winners.

Little Axworthy proved more than a little lame when the horses were called for the 2:08 trot, but his owners decided to start him, and he rewarded them by trotting a beautiful race, outclassing a great field and trotting the fastest opening heat in the history of the circuit when he negotiated the big ring in 2:05 1-2. This heat also established a new season's race record.

The second day's program today found the North Randall sweepstakes for 3-year-old trotters of the 2:18 class as the feature event. The Pittsburgh trotter, Bondella, piloted by Tommy Murphy, was touted as the favorite, though "Pop" Geers, with Deroche, and John Dickerson, with either Harlan Express or Harvett, are expected to be close to the wire at the finish. This is a two-in-three heat race.

Other events of the card are the 2:19 trot, purse \$1,200; 2:12 pace, purse \$1,200; 2:05 pace, purse \$1,200.

Today's weather was cooler and cloudy.

Efforts to bring Directum I and William together in a finish pacing

contest here Saturday have failed. The contest between these stars will take place next Tuesday at Detroit.

HISEY'S LOST.
Hisey's baseball club of Newark was defeated by the Mt. Vernon team in Sunday's ball game. When the dust had cleared, Mt. Vernon had 13 runs stacked up, while the Licking county organization failed to tally once. Bond pitched for the locals and allowed only a few hits. His strike-out record was good. Newark lost out because of many errors.—Mt. Vernon Banner.

GOLDEN WEDDING CELEBRATED BY NEWARK COUPLE

Mr. and Mrs. O. E. Hunt quietly celebrated the fiftieth anniversary of their wedding at their home, 27 Allen street yesterday.

Mr. and Mrs. Hunt were married July 19, 1865. To this union were born eight children, seven of whom survive. The gathering at the home was in the form of a pleasant family reunion. Those present were: Mr. and Mrs. Dallas E. Hunt and son Oscar, of Newark; Mr. and Mrs. J. H. Ellery of Mt. Vernon, Mrs. E. W. Hunt and son Frank of Brazil, Ind.; Mrs. George J. Wagner and daughter Doris of Barnes Junction, Mr. John N. Hunt of Marseville, Mr. and Mrs. Roy Long, Mr. and Mrs. Will N. Hunt and Miss Gertrude Hunt of Newark.

After spending several hours in social intercourse, the company wended its way to the Ideal Exchange on Church street where it had been previously arranged for a 2 o'clock dinner. The guests were all seated at one table, which was profusely decorated with golden flowers in recognition of the occasion. In the center of the table was a massive wedding cake, decorated with gold with the following inscription, "1865-1915." The dinner was splendid and was greatly enjoyed by the participants.

Mr. and Mrs. Hunt received many beautiful and costly presents, and an innumerable number of cards of congratulations, and expressions of good will and esteem from their legion of friends. It was an occasion which will linger long in the memory of all who participated.

131 BUILDINGS IN CINCINNATI MUST BE RAZED

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, Ohio, July 20.—Orders have been issued by the state fire marshal's office for the razing of 131 buildings, including dwellings, stables, sheds, outhouses and additions in Cincinnati as the result of the clean-up campaign carried out by the Cincinnati chamber of commerce, assisted by the deputy state fire marshals. In addition to these buildings which have been ordered destroyed, inspection orders for repairs and the removal of rubbish have been issued to twice as many owners. This is the second list of orders sent down by the Columbus authorities as the result of Cincinnati's clean-up, the first having been announced several weeks ago.

NEW CREDIT VOTE OF \$750,000,000 BY PARLIAMENT

(ASSOCIATED PRESS TELEGRAM)
London, July 20.—A new vote of credit of 150,000,000 pounds sterling, (\$750,000,000), was introduced today in the house of commons. This second supplementary vote will bring the sum actually appropriated by parliament for war expenditures to the total of 650,000,000 pounds sterling (\$3,250,000,000).

The amount thus provided will tide over the period of the forthcoming parliamentary recess. The vote of credit does not involve a new loan, but merely sanctions expenditures out of funds on hand.

Wilkin's Corner United Brethren to Build Church

A new United Brethren church will soon be built, facing the Macadam pike, just this side of Wilkin's corner. Ex-county sheriff Frank E. Slabaugh has very kindly donated sufficient ground for the erection of the same and work on the building will be started very soon. Subscription papers are now being circulated by the members of the church there and it is expected the same will meet with the hearty approval of the inhabitants of the community.

The church organization is the result of a special evangelistic meeting of three weeks held late last winter by Rev. A. B. Cox, Rev. M. R. White and E. M. Larson of this city, in the school house at Wilkins, in which nearly fifty persons were converted and more than forty joined a new church organization there.

It is expected that the new church will be ready for dedication before cold weather.

NEW BASES

For Operations Against Riga Are Available to Austro-Germans.

(ASSOCIATED PRESS TELEGRAM)
London, July 20.—The belief is expressed in Danish military circles, according to a Copenhagen dispatch to the Exchange Telegraph company, that the Germans intend to use Windau and Tukum as bases for operations designed to result in the capture of Riga. The chief purpose in seeking the occupation of Riga, is believed, in Copenhagen, is to use it as a new naval base after the Gulf of Riga has been cleared of mines.

Causes Row In Baseball

Little Johnny Evers, who has caused much trouble in baseball—usually to the opposing clubs—has stirred a row among the officials of the National League by his remarks during a game in Boston the other day.

Evers, taking exception to a decision by Rigger, who declared Bob Bescher safe at the plate on a close play, was quoted in a newspaper as having shouted:

"They're trying to get the crowds out; they've ordered a close race; leave them alone, boys; they're only following instructions."

Evers later expressed indignation because his remarks had been interpreted as a claim that the National League race was "fixed." He said: "I claim no such thing. I've been in baseball long enough to know better. To be sure, I might have said anything on the ball field. When an umpire hands you one like Rigger did at the home plate what you say will invariably be the result of hard feeling at the time."

George Stallings said: "There is absolutely no truth in the story that Captain Evers said that the National League race was 'fixed.'"

PARK TREES ARE IDENTIFIED BY SIGN MARKINGS

Small signs have been placed on a number of trees in the courthouse park, designating their species, and they will prove advantageous to those interested in forestry and the cultivation of shade trees.

The signs were erected by Henry Cochran, the well-known news-writer, and Councilman Frank Knauber, the two gentlemen bearing the expense of same. It is not generally known, but Mr. Cochran is a deep student of all that pertains to forestry as well as horticulture.

Mr. Cochran and Mr. Knauber spend much of their spare time in the timberland and both conceived the idea that it would be beneficial to the rising generation to be made acquainted with the numerous kinds of trees in the courthouse park, hence the erection of the signs. Following is a list of those which have been placed on the trees to date:

Ulmus albus (white elm), planted in 1838; three specimens.
Ulmus fulva (yellow elm); one specimen.

Ulmus acuminata (tapering elm); one specimen.
Acer saccharinum (sugar maple), forty of species in Ohio basin; one specimen.

Fraxinus albus (white ash); one specimen.
Fraxinus nigra (black ash); one specimen.

Cornus Americanus (dogwood), one specimen.
Ficus albus (white sycamore); one specimen.

Ficus rubrum (red sycamore); one specimen.
Leguminosa nigra (black or honey locust), (acacia) male; one specimen (one female).

Moraceae (Osage orange); not native; a male; one specimen.
Morus nigra (black mulberry); imported from Russia; one specimen.

Newark's first Chautauqua held a year ago at the corner of Sixth and Church streets was a distinct success. The large number attending the series of entertainments expressed their endorsement of the Chautauqua idea by promptly subscribing for enough tickets to assure success in 1915.

Acting upon these pledges, the women of the Federated Clubs entered into contract for this year's Chautauqua entertainments and it now develops that some people are repudiating their agreement to buy tickets upon the ground that the place of holding the Chautauqua has been changed from Sixth to Eleventh street. The officials declined to grant use of the Sixth street property, basing their action upon a recent court decision. The club women applied for use of White Athletic Field and the school board granted permission to hold the Chautauqua there.

In agreeing last summer to buy the 1915 season tickets no reference was made to the location of the Chautauqua. The ladies accepting these ticket subscriptions at their face value, entered into contract for this summer's program and they are bound to the contract. It is up to the subscribers for tickets or to the Federated Club women to "make good." Either the ticket subscribers or the ladies must pay. Surely every person who agreed to buy one or more tickets should not hesitate to do so. The tickets are not only worth the price but the honor of the subscriber is at stake.

Attorney General.

A statement issued by Attorney General Edward C. Turner asserts that out of the short term appropriation of \$39,964.50 for his office he saved \$13,976.63, and this appropriation is based on a reduction of expense of \$20,000 a year. Such saving is commendable, but one would have thought that Mr. Turner's well known spirit of fairness would have led him to explain that on his predecessor fell the work of conducting the civil prosecutions of the cases against the treasury looters under former Republican state administrations. While Mr. Hogan expended more money than has Mr. Turner, the former made his office self-sustaining and actually turned into the state treasury a surplus of more than \$175,000 above his expenses. This was recovered from the grafters whom Mr. Hogan pursued in civil suits, while Mr. Turner, as a local prosecutor, was supposed to look after the criminal cases against them. A notable fact in this connection is that Mr. Hogan as attorney general completed his work and all the work of his office, while prosecutions started by the present attorney general.

July 20 In History.

1861—Congress of the Southern Confederacy convened at Richmond for the first time.

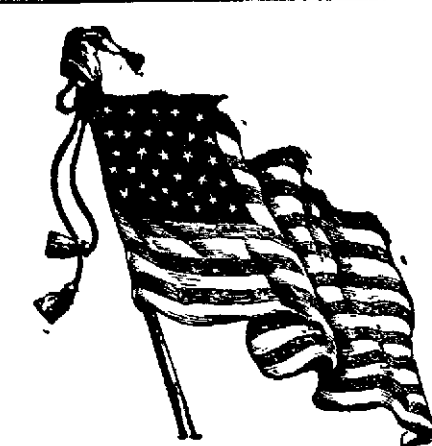

1866—Austrian-Italian naval battle of Lissa, in the Adriatic; Italy defeated.

1870—Beginning of the Franco-Prussian war. French troops marched to the frontier, and Napoleon's declaration of war was received and acted upon in Berlin. The war grew out of dispute over the succession to the throne of Spain.

1906—Peace between Guatemala and the Salvador-Honduras alliance signed on board the United States cruiser Marblehead.

ASTRONOMICAL EVENTS.

Evening star: Mars. Morning stars: Saturn, Jupiter, Mercury, Venus. Constellation Delphinus or Dolphin, known as Job's Coffin, a strange little group rising about due east, in meridian high up about midnight.

Vaudeville managers some time ago began a policy of retaliation by cutting the salaries of actors appearing in the film drama, and in the current news there is an account of the "secession" of a popular actress who leaves her company rather than forfeit the large salary offered her for acting before the camera.

Have the movies become a full-fledged rival of the regular theater? Their amazing popularity and their remarkable development as a lucrative amusement enterprise is an old story. A novel aspect of their growth is their indicated ability to lure competent actors from the legitimate drama on the assurance of larger salaries. But is it a competition that is destined to have any permanency? And is a boycott the best way to meet it?

It is inconceivable that an actor to whom the applause of an audience is as the breath of life could long remain content to act for an impulsive mechanism. On the other hand, it might be supposed that theatrical managers would profit in the end from the wider publicity gained by their "stars" through the films. The curiosity of movie audiences would naturally be whetted to see the "leading lady" of the photoplay in actual life. In the circumstances a policy of conciliation would seem to promise better results.

An Appeal to Americans.

(New York Tribune, Rep.) German propagandist journals are already printing tabulations of the loss of Democratic votes incident to Mr. Wilson's performance of his duty. This is an impudent and intolerable assertion of the doctrine that the President of the United States must think of the votes of those frankly devoted to alien interests when national honor and national interest are at stake.

In this situation there is just one thing for Republicans to do. Their support of a President defending American lives and rights must be complete and unflinching. American Republicans must replace German Democrats in the national alignment. The President must know and feel that at the water's edge all questions of partisan politics end.

I would be better for the Republican Party to endorse Woodrow Wilson in 1916 than to permit the principle to be established that to defend American interests is to commit political suicide.

Let no American, let no Republican, be deceived by the far-reaching and industrious manipulation now in progress.

What War Means.

(New York Mail.) The official appeal of the French Relief Society summarizes the losses in the war thus far. The dead number 2,223,300, and the wounded 4,317,116, and the war is only in its preliminary stage. England has hardly entered the war, but the number of her soldiers slain exceeds the entire number of Union soldiers killed in the four-year war of secession—116,000, as against 110,000 Union soldiers.

Only 8,000 English soldiers were killed during the three-year Boer war; 400,000 French soldiers have been killed. The entire number of soldiers killed, both Northern and Southern, in the American Civil war, was less than 200,000.

Leaving out the prisoners, the number of killed and wounded exceeds 7,000,000 men.

The reason for this appalling slaughter during the merely preliminary stages of the war is the fact that, whereas man is as easily destroyed as at any time in history, the extraordinary inventions and discoveries in all fields of human knowledge have increased almost inconceivably the means of destruction.

The inventions increasing the economic efficiency of the human race have also increased its power of destruction. War is an anachronism. It is humanly inconceivable and impossible. The inventions and discoveries of a few men of genius have produced such marvelous forces that when turned to suicidal purposes they threaten the very structure of civilization.

The biological enemies that have been kept in check by orderly civilized life and sanitary precautions are again making inroads. A great surgeon reports that so great is the number of new cases of syphilis that hundreds of years must pass before the human race can recover from this additional taint.

Typhus, cholera and the black death—in brief, the war pestilences of the middle ages—have reappeared as a fresh menace.

TAKE A LOOK

If You Have Time

Brunettes are said to be stronger and healthier than blondes. But men go right on picking the blondes.

Another precedent has been overturned by a Kansas bachelor. He was in a hospital six weeks a couple of years ago and did not marry the trained nurse who attended him.

There is some criticism of old Noah due to the fact that he took two hairless dogs into the Ark.

It is always the man with a bad stomach who fears other people eat too much.

No boy takes much stock in the theory that a whipping hurts his father worse than it hurts him.

If a man goes so far as to wear whiskers he might as well part them in the middle.

It takes nerve to fly in the face of tradition, but the fact is, they seldom serve prunes at a boarding-house.

When a boy discovers it isn't anything to eat he loses interest in it.

Breakfast seldom attracts a fashionable audience and never one that is enthusiastic.

Spirit of the Press

"Our Own Country."

Thomas A. Edison, speaking the other day on science as applied to warfare, remarked that science could make war even more destructive than it is now in Europe—that "the possibilities of chemistry and electricity have hardly yet been touched upon in warfare"—that "they can do a lot better!" When asked "how" and whether he could invent something more deadly than the German gas bombs, for example, Mr. Edison answered:

"I don't want to say: I won't tell; yes, I could; but I can't get myself to work on such stuff; I don't want to destroy life; I won't invent implements of warfare; surely it's bad enough without my making it worse."

"Wouldn't you if our country was attacked?"

"Yes! If our country is attacked I shall help make it worse, certainly!"

There spoke out Thomas A. Edison the American MAN, as distinguished from the scientist and kindly social philosopher. And that is the way all real Americans and real men feel about it. We abhor war; we pray for peace; we are willing to do anything we decently may to preserve our country's peace; but there are limits. We find them as Edison finds them. Our country forced to war—our own country attacked? That's different!—Chicago Herald.

Heaven in the Country.

Somebody is predicting that in time St. Louis will have 4,000,000 people. That theory, it is generally embraced would shatter all hope of any early millennium.—Houston Post. For the millennium will never come while any town has 4,000,000 people. Heavenliness exists only in the natural life of the country places.—Nashville Tennessean.

Making the Enemy Furnish Bullets.

When the British were endeavoring to subdue the Maoris they were long the victims of a ruse that enabled the natives to replenish their stock of bullets at the expense of their enemies. The Maoris would build a dummy and expose it from behind a tree near the British lines. Immediately the British would blaze away at it. Behind the dummy the Maoris would have constructed an earth bank and from this they would later dig their supply of bullets to send back to the British.—The American Boy.

Sale of Explosives.

The DuPont Powder Company has taken a step long overdue in instructing its agents to sell explosives only to customers whom they know to have a legitimate reason for buying. Other dealers in explosives ought to take the same step, and the law should make precautions compulsory. A man can't get poison without giving his name and address. This may not amount to anything, but it is a step toward safety and it is likely to supply a clue to a poisoner. Trade in habit-forming drugs is now under rigid regulations. But Eric Maenter could easily enough get 20 sticks of dynamite, besides all the other materials he needed for the manufacture of internal machines.—Philadelphia Record.

Relief for Belgium.

Whereas Edward J. Williams the treasurer who disbursed the funds to meet the cost of the construction of the Panama Canal, paid out \$2,000,000 per month on the average during the years 1907-13, he, as assistant treasurer of the Commission for Relief in Belgium has been distributing \$10,000,000 per month since the German occupation became effective. The economy with which this fund has been administered by the Commission and its splendid system of distributing food regularly, promptly, and economically, suggests to Mr. William B. Parker, the official historian of the Commission, that we have here a practical illustration of how successful collective marketing for an entire nation may be.—Chicago Christian Advocate.

THE EMPLOYERS.

The men who do the heavy toiling, when they are hot and heat is broiling, are often plunged in grief and dismay; they think their fate is sad and dismal. They argue, with the vim of lawyers, that fortune favors their employers, who wear glad rags and ride in motors, and look with scorn on sweating voters.

But they who wear the purple raiment, who hire the men and make the payment, have griefs to burn, as well as fellows who wield the sledge or pump the bellows. They burn the midnight oil and wonder how in the name of patent thunder, the way the tide of trade is flowing, they'll keep the blamed old business going. They're jolted now by Wall street spoliars; how will they pay the honest toilers, who envy them their lot so easy, which lot is quite distinctly cheery.

The whistle blows; the man of labor goes home to gossip with his neighbor, to smoke his pipe, tell stories funny, and curse all capital and money. One gloomy fact supremely clear is; all men have work, whatever their sphere is; we should not, either, a brother, but sympathy with another.

Huh!
The barkeep is an artist, yea!
For I see him draw beers all day;
And then each Saturday I see
Him draw his salary with glee.

What She Said.
"What did your wife say to you when you got home from the poker game this morning?" asked Batch.
"Are you going to be busy for the rest of the day?" asked Benedict.
"Yes," replied Batch.

"Well," replied Benedict, "some day when you can give me your undivided attention for about seven hours I'll repeat part of what she said."

Advice.
Be game and do not try to shirk
The task that makes you halt.
Just put some pepper in your work
And you'll be worth your salt.

The Wise Fool.

SUICIDE

OF DESPONDENT WIFE AND MOTHER BY SWALLOWING CONCENTRATED LYE.

Deceased Had Suffered Several Strokes of Paralysis in the Last Few Years.

Despondent because of continued ill health, Mrs. Elizabeth Eisenberger, 63, wife of Antone Eisenberger of 209 Summer street (Texas), swallowed a quantity of concentrated lye, Monday afternoon, and died at 9 o'clock Monday night at her home.

Mrs. Eisenberger has suffered several strokes of paralysis in the last few years and her illness preyed upon her mind continually. She was a patient at the Columbus hospital for several years.

Monday afternoon Mrs. Eisenberger borrowed a can of lye from a neighbor, mixed a quantity of the poison and swallowed it. Dr. D. M. Smith was called to attend her and though he employed every antidote known to medical science, death followed. Coroner W. L. Jackson was notified of the death.

Mrs. Eisenberger was born October 13, 1852, in Hungary. She came to Newark with her husband in 1902.

Besides her husband she leaves one daughter, Mrs. James Rinehart, 209 Summer street.

Funeral services will be held Wednesday morning at 9 o'clock at the Church of the Blessed Sacrament, East Newark. Interment at Mt. Calvary.

HOMELY, YET ADMIRABLE AND ENVIED; HER SECRET

The convention crowd made a path for her, cast admiring side glances, then with longing eyes followed her to the elevator. It was at the Ponchartraine in Detroit. The incident was recalled when I chanced to sit across the table from the woman. What was it about her that caused all that commotion? Her complexion. Really, I've never beheld its equal. Venturing to pick up acquaintanceship, I learned the secret.

"I've tried to make the most of my one charm," she said. "I know men adore make-ups and artificiality. I bar cosmetics; there are two things I use to promote natural loveliness and youthful appearance. When my complexion begins to age, I get an ounce of mercurized wax at the drugstore, apply at night like cold cream, wash it off in the morning. This gradually flakes off the outer skin; then I have a brand new complexion, magnificently beautiful, as you see."

"Wrinkles never bother me. At their inception I sathe my face in a solution of witch hazel, dissolving an ounce of powdered salicylate in a half pint of witch hazel. It works like magic."

Mona Morrow in Tatler.

Granville

(Special to Advocate.)

Granville, July 20.—Some interesting things are looked for Recital Hall this week beginning with tonight's illustrated lecture on "The Wonders of the Heavens," by Prof. Paul Biefield in the interests of the Summer school, to which the public is invited. Tomorrow evening at 8 o'clock one of the most interesting programs yet offered by the Social Union, will be given at the usual minimum fee for admission. There will be music and a clever little burlesque, all under the general classification of "Shakespeare in Lighter Vein." Never mind the weather! Everybody come and forget the weather! See what the women have to say in "Place aux Dames."

Mr. Ralph Lewis of Hopkinsville, Ky., is visiting at the home of Mr. and Mrs. L. N. Lowe in Cherry street.

Prof. W. H. Johnson and son Lowell returned yesterday from a visit to the Brumback cottage at Summerland Beach. Mrs. Johnson remained until today.

Dr. and Mrs. Herbert G. Dorsey of Dayton are expected to arrive in Granville tomorrow, en route for the Pacific Coast. Little Herbert Jr., will remain with his grandparents, Mr. and Mrs. E. J. Dorsey for two or three weeks.

President Chamberlain is in the east on business connected with the university, New York, Boston, and other cities will be visited before his return some time this week.

The artistic talent of Mrs. J. W. Rohrer is strikingly in evidence in the beautiful poster advertising the Social Union "Extra" in Recital Hall Wednesday evening, displayed in Chrysler's window yesterday.

The Song Cycle of Shakespeare Lyrics which will be sung tomorrow evening in Recital Hall, never before has been given in Granville. It will be worth hearing.

Mrs. C. E. Frank, who has been ill at her home in Centreville street for the past three weeks, is convalescing, and is able to see her friends.

Mrs. R. J. Simms and Miss Jessie Wright of Cleveland, who have been guests at the home of their brother and sister, Mr. and Mrs. C. J. Wright in East College street, have returned home.

Mrs. Clara Ogden will leave tomorrow for a visit with her daughter in

Cleveland. Thence she will go to Virginia.

Miss Helen Ackley, who has been visiting friends and relatives in the east and in Cleveland, returned to her home in College street last evening.

Mr. and Mrs. Albert Guckert, who started yesterday in their automobile on a gypsy tour, equipped with camping outfit, reached Chillicothe at noon and are still headed south. They report a broken spring in negotiating a "chuck hole" this side of Chillicothe.

Rev. D. C. Gilmore of Burma has returned from a lecture trip to several towns in the state. He preached in Johnstown Sunday.

Mr. Howard Barrow, who was suddenly taken ill on Sunday, while in his office where he had drawn for his mail, was taken to the Newark hospital. He is recovering and it is hoped will be about again in a few days. His friend Mr. Don Lowe of Chicago spent yesterday at his bedside.

William H. Vanderbilt has a tree which, although only two years old and less than six feet in height, has produced 15 apples, whereas two or three are unusual on a tree of this age.

On Wednesday an all-day Smith meeting of the women of Licking county will be held in the First Presbyterian church. The first session begins at 10 o'clock. Mrs. Florence D. Richard, state president W. C. T. U. and other speakers will be present.

An organization will be effected to cooperate with the Men's Dry organization in the campaign for prohibition. All are asked to bring a box lunch, and the ladies of Newark will serve coffee.

The Diversion club will entertain with the annual picnic at the Chocoran home west of the city on Thursday, July 22. All members will take the 10 o'clock car and get off at the Fulton school house.

Mrs. Edgar English entertained the Idle Hour club Friday at her home 178 South Fourth street, with a four-course breakfast honoring her guest Mrs. Charles Culbertson of Belaire, Ohio, and Mrs. Jan Parrel and Mrs. Sheridan of McConnellsville, Ohio, who are the guest of Mrs. Frank White of penny avenue.

The morning was devoted to contests and the club prize was awarded to Mrs. H. B. Coulter and the guest souvenir to Mrs. Arthur Cornell.

HORN—FRANKS.

On Monday afternoon at 1:30 o'clock at the First Methodist Episcopal church, Mr. Frank E. Horn and Miss Minnie No Franks were quietly married by Rev. R. G. Bowden. Immediately after the ceremony they departed for their new home at New Lexington, O., where Mr. Horn is employed by the Ohio Light and Power company. The good wishes of their many friends in Newark will follow these popular young people to their new home.

Obituary

Sister Mary Aquinas.

Sister Mary Aquinas, a nun of the

Dominican convent, St. Mary's of the

Springs, Columbus, died at St. Au-

thony's hospital in Columbus at

3:10 o'clock Sunday evening follow-

ing an operation for appendicitis.

Sister Mary Aquinas was Miss

Catherine Leroy of Zanesville. She

was born and raised there and she

will be remembered by many New-

ark friends. Among her survivors

are five brothers and two sisters, J.

A. Leroy, John Leroy, George Leroy,

the Misses Mary and Elsie Leroy of

Zanesville; Dr. Bernard Leroy of

Athens, and Charles Leroy of St.

Louis. Zanesville relatives were no-

tified of her serious illness Sunday

morning and were in attendance at

her bedside throughout the day.

During the years as a religious work-

er Sister Aquinas taught school in

many of the Catholic schools

throughout the state including New-

ark.

Minda Ashcraft.

Bladensburg, O., July 20.—Mrs.

Minda Ashcraft, 56, wife of Mr. Mar-

tin Ashcraft, died at noon Sunday

at her home 2-12 miles south of this

place. Death was due to tuberculosis

of the bowels. Her condition had

been critical the past ten days.

Her husband and four children,

Messrs. Clyde and Clarence Ashcraft,

Mrs. Grace Cooksey and Mrs. Daisy

Ramsey, survive. Funeral services

were held Tuesday morning, and

burial at Mt. Zion.

Mrs. Ella Teagarden.

Mrs. Ella Teagarden, 86 years old,

widow of William Teagarden, died

Monday afternoon about 4 o'clock at

the home of her daughter, Mrs. W.

L. Harrah at St. Louisville. Mrs.

Teagarden's death was due to or-

ganic heart trouble, with which she

has been afflicted for the past two

years.

Mrs. Teagarden, while a native of

Newark, N. J., has lived practically

all her life in this country. She came

to Granville more than eighty years

ago with her parents and lived there

for many years. Later she moved

to Hebron and then to St. Louisville.

She was the youngest of nine chil-

dren, all of whom have passed away.

Mrs. Teagarden leaves the follow-

ing children: Thomas Teagarden,

Fr. Wayne, Ind.; W. E. Teagarden,

Valley street, Newark; Mrs. Mary E.

DePuy, Leipsic, O.; Mrs. Bell Ander-

son, Wallace street, Newark, and

Mrs. W. L. Harrah, at which home

she died.

Mrs. Teagarden has been a mem-

ber of the Disciple church for the

past forty-eight years, uniting with

the church at Hebron.

Funeral services will be held Wed-

nesday morning at 11 o'clock, sun-

time, at Rocky Fork church. Rev. Mr.

Madden of Hebron, officiating. Bur-

ial at Rocky Fork.

Gertrude Robinson.

Mrs. Ross Smith received a tele-

gram this morning announcing the

death of her cousin, Mrs. Gertrude

Bain Robinson, which occurred at

her home in Ottawa, O., early today.

Mrs. Robinson was a daughter of

the late Judge Samuel Baker, and

was born and reared in Licking

county.

No additional details have been

received regarding the death of Dr.

M. E. Dawson, who was drowned,

Sunday, at Loranger, La., notice of

whose death was printed in Mon-

day's Advocate. Loranger is a small

lumber town above five miles from

Hamden.

The body will arrive at Coshocton

tonight and funeral services will be

held there. The Coshocton Times-

Aze has the following account of Dr.

Dawson's life:

"Dr. Dawson was born in Coshocton

county, near Willow Brook Janu-

ary 30, 1864. After teaching

school at West Lafayette and other

places in the county for several years

he entered Western Reserve Medical

College and was graduated in 1891

with honors. He was president of his

class.

"He practiced medicine for sever-

al years in Osego, Hanover and

Granville. Four years ago he gave

up his practice and purchased a

large farm in Greene county, near

Dayton, where he lived until last

March when he moved to Louisiana,

where he was engaged in stock-rais-

ing and grape-growing.

"In 1892 Dr. Dawson was married

to Miss Ollie Tredway. To that

union one child—Mrs. Ethel Thomp-

son—was born. Ollie was born.

"Married again in 1896 to Miss

Martha Jane Ryaney of Osego, who,

together with their two children—

Harold, 16, and Helen, 13—survives.

"Dr. Dawson was a member of the

NEGRO KILLED
IN A PURSUIT

(Associated Press Telegram)

Portsmouth, Ohio, July 20.—E. P.

Bloomhuff, officer of Covington,

Kentucky was shot and Jerry Lewis,

negro, was killed in a chase that ex-

tended from Covington, Kentucky, to

Maysville, Kentucky, last night.

Grant Howard, another negro, was

captured by a posse of 150 citizens

in the marshes of the Ohio river soon

after. It had been reported in

Vanceburg that the two negroes had

shot a railroad detective at Coving-

ton, hence the formation of the posse

at Vanceburg.

The negroes were wanted for par-

ticipating in a duel in or near Cov-

ington yesterday afternoon. They

were chased from Covington to Mays-

ville by Covington officers.

REFERENDUM ON THE

HAS BEEN GIVEN UP

(Associated Press Telegram)

Columbus, Ohio, July 20.—That

there will be no referendum on the

Smith-Marlow agricultural bill, which

goes into effect tomorrow, was vir-

tually admitted at headquarters of

the organization which sought to se-

cure the necessary 68,000 signatures

to call such a referendum. Lack of

time and money was given as the

reason for the failure.

EXPOSURE

OF EXTRAVAGANT APPROPRIATIONS OF LEGISLATURE ANGRERS WILLIS.

\$4,000,000 More For First Year of Present Regime, Than For Last Year of Cox's.

(ASSOCIATED PRESS TELEGRAM) Columbus, July 20.—Indications today were that Governor Willis will make an individual investigation of state finances and expenditures of the last administration, as a result of the attack on the present Republican administration's appropriations made by State Auditor Donahay in a statement given out Saturday. The auditor sought to compare the expenditures of the administration of Gov. Cox with the appropriations of the new legislature and declared that although the expenses of the last year of the Cox administration were \$18,000,000, \$22,000,000 had been appropriated by the present legislature for the first year of the Willis administration.

Governor Willis felt much displeasure over the statement of Auditor Donahay, it was said. He thought that although there may have been no actual mis-statements, it tended to misrepresent conditions. He thought it unfair to compare actual expenditures with appropriations, because part of the appropriations would not be used and will lapse.

It was said at the governor's office today that a protest will be made if Auditor Donahay seeks to charge the printing of his statement to the state, on the ground that the nature of the appropriation analysis was political and not official. A large number of copies were printed.

A Full Measure of Health

is the reward of those who live right and eat right.

And as fresh air, exercise, and good food are the principal factors, it is important that food be selected which contains the essential nutritive elements in well-balanced, easily digestible form.

In making the famous wheat and barley food,

Grape-Nuts

the malting of the barley brings out the diastase (the digestive element) while the long 20-hour baking breaks down the starch cells of the grains. Thus Grape-Nuts does not tax the digestion, but actually assists in the assimilation of other foods.

THREE KILLED, ONE BADLY INJURED BY LIGHTNING

(ASSOCIATED PRESS TELEGRAM) Washington, July 20.—Professor Augustine J. Bourdeau, aged 41, prominent Seventh Day Adventist and Edwin Andrews, 15, son of an Adventist, are dead and Marguerite Bourdeau, 9, a daughter of the dead man, is seriously injured, as the result of lightning stroke, at Takoma Park, Md., a suburb.

The three were standing near a tree in front of the Adventist administration building in Takoma Park, following an electrical storm late yesterday. They were viewing the work of the lightning on the tree when a second bolt came. Bourdeau and young Andrews were instantly killed. The girl was badly burned, but is expected to recover.

GOVERNOR WILL GO TO REUNION OF LEGISLATORS

(ASSOCIATED PRESS TELEGRAM) Columbus, July 20.—Governor Willis said today the only thing that will prevent him from attending the legislative reunion to be held in Cincinnati Sept. 21 to 24, and to include a trip to Chattanooga in a special train financed by Cincinnati commercial interests, is a trip to the San Francisco exposition which he still plans to take about that time. He had planned to go to the coast a month ago, but cancelled the tour at that time owing to pressure of state business. The itinerary of the exposition trip will be about the same as that arranged for the early summer, it was said.

A number of other state officials said they would accept the invitation to join in the frolic of the legislators.

FILES PROTEST ORDUNA ATTACK TO DEPARTMENT

(ASSOCIATED PRESS TELEGRAM) New York, July 20.—William O. Thompson, counsel to the Federal Industrial Relations Commission, said today that he had sent to the state department in Washington a protest against the attack of the German submarine on the Cunard line steamship Orduna on which vessel he was a passenger. His protest was first telephoned and then mailed yesterday.

Mr. Thompson said that he used the telephone to convey his protest to the state department because he desired to remain in New York for a few days, but that he had offered to go to Washington at once, if necessary. He was requested to forward a full report by mail, and did so.

MILITARY

TRAINING FOR BUSINESS AND PROFESSIONAL MEN BY STATE OF OHIO

Will be Given by O. N. G. Officers in September if Enough Apply to Make it Pay.

(ASSOCIATED PRESS TELEGRAM) Columbus, July 20.—Letters sent to mayors of all cities today by the adjutant general's department, asked recommendations of business or professional men who may want to take the two weeks' course in military training which is being arranged tentatively for the last two weeks in September at Camp Perry. If enough men apply for the encampment to make it financially possible, the state military department will arrange the course, Colonel E. S. Bryant, assistant adjutant general indicated today. Similar arrangements are being made by New York state, he declared.

The adjutant general's department will rely on mayors of cities or other officials to give publicity to the scheme in local communities, and to urge interested men to send their applications to the adjutant general. It was decided today the cost will be not more than \$20 for the two weeks, exclusive of transportation to Camp Perry. This will be enough to supply uniforms which would be purchased through the state military department, to pay national guard officers who would act as training officers for the "raw recruits," and to buy rations. Since no appropriation was made for such a purpose by the legislature, the entire expenses of the proposed encampment must be borne by those attending it and receiving military instruction.

The course would include military drills, target practice, artillery work, trench digging, instructions in tactics and maneuvering, beside practical lessons in camp life.

"We are anxious to receive applications mainly from men of some standing in a community," said Colonel Bryant. "We want to give a chance to men of families who have not the time to belong to the national guard, but who would like to know something of military life. The department will reserve the privilege, in case the encampment is held, to investigate each applicant and to refuse to enroll any who are thought unfit. Military discipline will be observed strictly, and we do not want any to apply who think they can go to camp and do what they please. Although inexperienced men will have to be drilled as privates, they are the persons on whom this country would have to depend as officers if the United States should go to war."

JUNIOR CLUB PLANS GIVEN NEXT FRIDAY

Boys and Girls Will Meet at Methodist Church, Elect Officers, Learn Games and Hear Stories.

The first meeting of the Junior Redpath club, a new department of the local chautauqua, will be held Friday, July 23. On that occasion Mrs. Grace Tatum, general supervisor of children's work, will be the guest of Newark boys and girls. The invitation for this meeting is general.

Mrs. Tatum wants everyone there in order that it may be a happy "how-do-you-do" time.

The meeting will be held at 2:30 o'clock in the social rooms of the First Methodist church and in addition to outlining plans for children's work during the 1915 chautauqua, Mrs. Tatum will describe several new games, tell some interesting stories and explain the Junior club idea. There will be on exhibition some of the official club buttons and the large pennant that is to be awarded at the close of the season to the champion Juniors of the Chautauqua circuit.

Grown-ups are also invited to the meeting Friday as Mrs. Tatum desires the co-operation of parents and friends in making a success of the club. In the preliminary work she is being assisted by Mrs. John M. Mitchell and at the initial meeting the boys and girls will elect their officers for the season.

FANTASTIC FLINGS OF FERULLO IN HIS FURORES AT CHAUTAUQUA

WHEN Ferullo and his great band, booked for the local Chautauqua, appeared for a long engagement at Electric Park, Kansas City, a few months ago the cartoonist of the Post sketched the great leader in a number of poses and commented as follows:

"If Ferullo should, by bad luck, ever lose his musical ear, crack his lip or break his fiddle bow finger for every instrument and thumbs 'em all like a big league catcher. Some go to see his acrobatic gestures and others go to grab the music, but either is worth the time and money. Not only can you hear some of the best band music, but he is in the flock some of the best soloists in the world."

"His popularity in Kansas City town is illustrated daily by the lack of seats at every concert. The tanbark in the big open auditorium is sprinkled daily, which makes it one of the coolest spots in the city, where you can listen to a band that has thrilled the crowned heads of Europe."

ROMANTIC WEDDING WAS WITNESSED BY NEWARK RESIDENT

Fletcher S. Scott, of this city, was a guest at the Thomas-Close wedding at the Maryland building at the Panama-Pacific Exposition. This wedding was the result of a Washington romance which culminated several days ago.

The San Francisco papers carried the portraits and scenes of the interesting event. The bride, Miss Loraine S. Close, a beautiful young girl, is the daughter of Colonel and Mrs. James T. Close of Upper San-Diego, O., and sister of Common Pleas Judge Chas. F. Close, said to be one of the youngest judges in the United States. Miss Close for several years has been employed in the treasury department at Washington, and her desk was just opposite that of Owen Clayton, of this city.

The wedding, says the San Francisco Examiner, was the result of a pretty romance in which figured an ardent courtship, misdirected letters and telegrams, and finally a long-distance call between San Francisco and Washington. The event was to have been celebrated at the latter city in June, but Mr. Thomas was called to San Francisco by business interests. Growing impatient he called his fiancée up at Washington by long-distance phone and he pleaded with her to come at once as the sequel shows not in vain.

Miss Close arrived and was greeted by Mr. Thomas and friends and went directly to the Maryland building where she was the guest of Miss Elizabeth Tillman Hensley, president of the Maryland club. Rev. Charles F. Aked officiated at the nuptials, and to the strains of Lohengrin's wedding march from violin and piano, in the glitter of myriad electric lights and a profusion of rare flowers, ferns and potted plants, the charming bride wearing a golden cloth gown and lilies of the valley, the groom in the traditional dress clothes, his best man being August Post, scientist and aeronaut of international fame, were married. Owing to the fact that Mr. Thomas' parents are orthodox Quakers, the couple received no presents from them.

At the conclusion of the wedding, Hon. Newton Miller, directing commissioner of Ohio, invited the contracting parties and their guests to a reception and dance at the Ohio building, whither they proceeded amidst showers of rice, confetti, ribbons, etc. Jack London, a close friend of the bridegroom, tendered the happy couple the use of his yacht "Snark" for a bridal cruise.

Mr. Thomas is the son of Dr. Francis Thomas, one of the wealthiest men in Maryland, and is a graduate of Swarthmore College, and was chairman of the Roosevelt inaugural ball committee when the colonel succeeded President McKinley, and won renown for his executive ability during the Alaska-Yukon expedition as chief of the department of publicity.

Among the invited guests who attended the marriage were: Mr. and Mrs. Newton Miller, Sherman A. Cuneo, secretary of the Ohio Exposition Commissioners, and his guest, Judge Fletcher S. Scott, of Newark, O.; Mr. and Mrs. Jack London, Mr. and Mrs. Harry Perkins, Mr. and Mrs. W. A. Raymond, Mr. and Mrs. W. H. Crane, David Ward, Guy Bates Post, Mrs. Caroline Sayers Wells, August Post, Mr. Nitke, W. E. Carlton, a number of foreign diplomats, and several army and navy officers.

"Over The Wire" (By Dorothy Clarke)

Wasn't she too adorable for words? I think she is the sweetest girl I've ever seen. Yes, my dear, she has had innumerable offers to dance professionally, but, of course, she wouldn't consider it. That's so, you just saw her in costume. Well, she changed later to a dance dress. The skirt was made of silk net, in three tiers. The top skirt was of violet. The next tier and the last even finer violet, and each was bound on the edge with silver ribbon. The bodice was dark violet net draped over a broad girde of turquoise blue satin. Each long angel sleeve ended in a silver tassel. She wore silver slippers and an exquisite corsage bouquet of orchids. Her only hair ornament was the lightest kind of violet madeline which she wore veiling her eyes and tied in a bow at the back of the head. The effect was charmingly misty.

In Milady's Boudoir (By Gwen Sears)

Face powders of this day and generation are generally of excellent and harmless composition. They are delicate, pleasant in texture and odor, and carefully tinted. Most women agree that face powder in hot weather is a necessity. The dainty woman could not do without it. It is just as necessary to her as toilet soap and face cream.

The skin should be entirely clean, the powder lightly applied and as lightly dusted off. It should not lie very apparent on the face of the skin. Either way defeats its purpose as an invisible beautifier. It must be there, but it must not be visible. If one can understand just how a thing which is not visible can secure a pleasing effect, but this is just what good powder does, when it is put on by the woman who knows the art of its application.

When powder will not adhere to the face, it betrays a great dryness of skin and cream must be used to do away with this. A thin cream, put on and wiped dry, then powder at once applied, will be found to furnish just enough oil to cause the powder to stick. If one wishes to apply a heavy coating of powder as a protection before going out into the wind and sun, the cream must be used, wiped off, and powder put on plentifully and allowed to remain on, say, for fifteen minutes. The face should then be wiped with a clean cloth and all superfluous powder removed. Enough will remain with this treatment, however, to give the needed protection.

The committee on the Masonic picnic will hold a meeting in the Temple this evening, to which every Mason in the city is invited. It is especially desired that those who served on the different committees last year be present at this meeting.

It is the desire of the committee to form a big booster committee of all the members as the success of the picnic depends much upon every member putting all he can into the time. You remember what a delightful time was had last year. Come out tonight and bring other members with you and lend a hand in making this year's picnic as good or better if possible than that of last year.

POLICE SELL 300 MOVIE TICKETS IN VERY SHORT TIME

Tickets for the special benefit for the family of Officer Bosseman, killed in a gun fight with burglars more than two weeks ago, sold rapidly last week and there is every indication that a neat sum will be realized for the benefit of the officer's widow and children.

Manager Gallagher of the Lyric and Gem theatres, gave a roll of 1000 tickets to the Odd Fellows lodge and generously instructed the lodge officials to sell them and turn the entire proceeds over to Mrs. Bosseman. The police department took 300 of the tickets and sold them in a very short time.

The lodge members were equally successful and it expected that all will have been sold before the week is over.

The tickets are good on July 19 and 20 and July 26 and 27. All the money realized from the sale of the tickets is turned over to Mrs. Bosseman. The ready sale found for the tickets indicates that Newark people realize that the late officer was courageous, and efficient and that he gave his life for the safety and welfare of the property of the citizens.

How To Eradicate All Superfluous Hair (Advice By a Skin Specialist)

The best means I have ever found for removing all signs of disfiguring growths of hair on the face, neck, arms, or hands is a new preparation called Mrs. Osgood's Wonder. I have recommended it in thousands of cases and I know it is really of its ability to banish even hair forever. It cannot injure the skin or complexion and is quite money saving.

You can get Mrs. Osgood's Wonder from T. J. Evans or any up-to-date druggist. Signed Money-Back Guarantee with every package. Do not apply this treatment except where total destruction of hair is desired.

Every Day Etiquette

"Will you please tell me if it is proper to pick asparagus up in the fingers, to eat it?" asked Will.

"Asparagus is not taken up in the fingers. All that is edible of the stalk can be cut from it with a fork," said his father with a smile.

Your Boys and Girls

The very first item in the training of the day old infant is the matter of regular and punctual feeding. Inexperienced mothers little realize the importance of this seeming trifle, both for their own comfort and their baby's physical welfare. Once get a baby into the habit of being taken up and being fed every time it happens to cry, and you have indeed started trouble for yourself.

It is on this rock that young mothers often wreck much of their own and their household peace. They think that every cry of the baby is a demand for food, so they take it up and feed it every time it cries. It should be remembered that babies cry for all sorts of things besides hunger

and that many times the cry is nature's way of exercising the little lungs.

Visited Cousin.

Billy Taylor of Zanesville, who holds the record for the world's championship in a standing high jump, was the guest of his cousin, Dr. J. T. Lewis last evening. Mr. Taylor was on his way to the Panama-Pacific exposition at San Francisco, and expects to visit other Western points, remaining for a period of two months.

CHARLIE CHAPLIN AT THE GRAND TOMORROW. ALL CHAPLIN COMEDIES PRODUCED THIS YEAR WILL BE SHOWN FIRST AT THE GRAND.

Case Settled.
E. O. Conley, who was arrested in Newark Saturday on a charge of petit larceny, preferred by Troy G. Harris of this city, was arraigned before Mayor Perrine Monday morning. He pleaded not guilty and the charge was withdrawn by Mr. Harris on condition that Conley pay the costs.—Mt. Vernon Banner.

Is Making Good.

Mr. and Mrs. Henry Shull and family came up from Wheeling in their touring car yesterday afternoon and will spend a week with relatives in this city and near Jacksonton. Mr. Shull was a former engineer of the Cochlin planing mill in West Main street, but since leaving here about 12 years ago, has been engaged in the moving picture business, having two large theaters in Wheeling and one in Martin's Ferry, the latter seating 800 people. Mr. Shull has prospered and this fact will be pleasing news to his many local friends.

For Reckless Driving.

Bernard Shaw, arrested on affidavits charging intoxication and reckless driving, was fined \$5 and costs on each charge when arraigned in police court Tuesday morning. The fine and costs in one case were suspended during good behavior. Five other drunks drew fines of \$5 and costs. One defendant was fined \$5 and costs on three charges of drunk, resisting an officer and disorderly conduct. He was ordered committed to a cell on a bread and water diet on all three charges.

Taken to Zanesville.

Guy Good, arrested Sunday by a state inspector on a charge of bootlegging, was taken to Zanesville Monday evening by Deputy United States Marshal Wright. He will be arraigned before United States Commissioner Frazier.

Visited Friends.

Milton M. Taylor of Columbus, was a visitor in the city Sunday and Monday. Mr. Taylor is chief clerk and bookkeeper of the Columbus hotel, one of the Capital City's well known hostilities. He was a former member of the public service board in this city.

After Melon Thieves.

Thieves broke open a freight car in the local yards a few nights ago stealing two watermelons and destroying a large number of others. An effort is being made to learn the identity of the thieves. This practice continued all last summer and was the cause of a considerable loss to local commission merchants.

Back From Outing.

Mr. and Mrs. James Cooper have returned from a delightful outing along the Great Lakes and northern Michigan, returning home via Cleveland, Buffalo, Niagara Falls and Pittsburgh. Mr. Cooper also spent several days in Steubenville. Mr. Cooper states that the season at Mackinac Island is very backward and that there were but few people there registered at the various resort hotels. He attributes the fact to the weather and a sharp rivalry of the various steamship companies and heavy passenger traffic to the Panama-Pacific exposition.

Moving Barn Down Hill.

Benjamin Pendleton is just now engaged in the ticklish business of moving a big barn down a long hill at an angle of 45 degrees at the Warren S. Weiland place east of Newark. The barn was erected several years ago before Mr. Weiland thought of his big greenhouse proposition and before any landscape gardening was done on the place. In working out the scheme the barn proved to be in the wrong place so Mr. Pendleton is practically picking it up and setting it down in its new location at the foot of the hill.

Re-Laying Sidewalk.

Work was started Tuesday morning to tear up the sidewalk put down last winter around the new bank building which will soon be the new home of the "Old Home" Building Association company. Action of frost on the newly laid concrete before it was "set" caused imperfection and it was found necessary to re-lay the walk. With the new construction, a water proofing preparation will be used to keep the compartments under the walks free from moisture.

CAR TRACKS MAY BE BUILT UPON EUCLID AVENUE

CLEVELAND CITY CHARTER UPHOLD BY OHIO SUPREME COURT DECISION.

In Cincinnati Case, However, Court Holds Consent of Majority of Property-Owners Necessary.

(ASSOCIATED PRESS TELEGRAM)

Columbus, O., July 20.—The supreme court today upheld the constitutionality of the so-called "consent law," which requires approval of a majority of property-owners along the route of a proposed street car extension before the line may be installed. The court decided, however, that a municipal charter adopted under the home rule amendment may rightfully contain a provision to nullify the consent law within the municipality.

The two cases involving the validity of the law were brought up from Cleveland and Cincinnati. Because of their similarity, they were heard together. Under the decision, the Cleveland Railway company may proceed to build a street car line through Euclid avenue, between Twenty-second and Fortieth streets, so-called "Millionaire's Row," despite the protest of Frank Billings and other residents of that avenue, who sought an injunction to prevent the street car company from carrying out its plan.

The Cleveland council had authorized the extension and asserted it had the right to ignore the state consent law under provisions of the Cleveland municipal charter. The attitude of the supreme court, therefore, is interpreted to assert once again the constitutionality of a municipal charter to supersede state law in all matters except taxation and police regulations. Lower courts gave similar decisions.

In the Cincinnati case, in which the constitutionality of the consent law was contested directly, David L. Carpenter and other residents of Reading Road, sought to enjoin the Cincinnati Traction company from extending a line through their street to Bond Hill. They were successful in their suit, for the supreme court's action forbids the extension except with consent of a majority of property-owners along the route. This probably cannot be obtained. The city of Cincinnati was a party in the suit, since the council authorized the new line's extension.

The superior court of Cincinnati had upheld the constitutionality of the consent law and had granted a permanent injunction to the Reading Road residents against the traction company. The court of appeals reversed this decision, but the supreme court reverses the appellate tribunal and in effect grants the injunction. A number of communities have been watching the cases with unusual interest because they affect conditions in other cities where street railway companies wish to make extensions through resident streets but have been prevented by property owners withholding their consent. The decision makes impossible the projected plan of building a car line in East Broad street, Columbus, considered an aristocratic residence avenue.

The supreme court today dismissed the suit of Miss Jeanette Morgan of Cleveland, against district tax officials of Cuyahoga county, without deciding the question involved, whether a woman can be appointed to the position of tax assessor in Ohio. The court held that since the Warnes law, under which Miss Morgan was to have been appointed, has been repealed, no definite question remains to be determined.

She took the civil service examination for deputy tax assessor and passed it successfully, but district tax officials refused to name her because she was a woman.

Get GETS-IT For Corns

Beware of Imitations.

"Anybody that says that there's something else for corns is as good as 'GETS-IT'—either never had corns and is guessing, or never used 'GETS-IT' and doesn't know."

When you've gone along for years trying everything, when you've sat up nights wrapping up your toes in bandages, smearing on salves that rub off or swell up the corn, pasting on cotton plasters that makes corns pop-eyed, slaughtering your toes with razors, jabbing them with knives and prunings to the quick with scissors—and then you put on two drops of "GETS-IT"—and see your corns come clean off—why it just looks like a miracle. No wonder you get mad when somebody says there's something as good as "GETS-IT" for corns, callus, wart or bunions. "GETS-IT" never fails. No pain, no trouble. Avoid substitutes. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or direct by E. Lawrence & Co., Chicago.

doesn't know. I've tried quite a few of the just as good kind—but now I use the one that millions are using because of the million wonders it has done—"GETS-IT".

Look out for imitations of "GETS-IT" made up with names like gold and similar. Take no chances with your feet.

Instinct Versus Reason.

There has been a lot of talk in England of recent years a reaction against reason, an avowed worship of instinct and tradition and even prejudice. The doctrines of this reaction are in themselves fascinating, and they have been preached by fascinating writers. The way of instinct and old habit is so full of ease, so facile and strong, and untrodden! Look at the faces of men who are wrapped up in some natural and instinctive purpose. Look at a dog chasing his prey, a lover pursuing his beloved, a band of savages men advancing to battle, a crowd of friends drinking and laughing. That shows us, say the writers, what life can be and what it ought to be. "Let us not think and question," they say. "Let us be healthy and direct, not fret against the main current of instinctive feeling and tradition."

In matters of art such a habit of mind may be valuable. In matters of truth or of conduct it is, I believe, as disastrous as it is alluring. —Gilbert Murray in Atlantic.

Dangerous Nitroglycerin.

Nitroglycerin is a fearfully dangerous explosive and at a temperature of only 100 degrees—that is, very little more than the warmth of the human body—it begins to decompose.

Tons of nitroglycerin are turned out every day, for it is the explosive from which gun cotton is made. But all the mixing vats are artificially cooled by coils of cold water pipes.

The cleaner nitroglycerin is made the less the danger. Consequently it undergoes any number of washings before it is fit for use. In the earlier days of its manufacture nitroglycerin waste water was allowed to run away through open drains, or into streams. It was not realized that this waste constituted a source of danger until, one day, a flash of lightning, striking ground near a factory, which was soaked with this compound, caused a fearful explosion. A cavity twenty feet deep was blown in the earth, and the factory itself, although fully 200 yards away, was practically demolished.—London Answers.

Destroying Guns.

It may be necessary to destroy guns to prevent them falling into the hands of the enemy, or to make captured guns useless. If a small amount of dynamite or other explosive is available, of course this can be done very effectively. If not, the breech of the gun is closed and the hinge joints smashed as much as possible with a handspike or pick. If there is time a few rifle shots fired at the vital points of the gun effectively jam the mechanism so as to make it useless. With rifles, the butts are broken off and the barrels destroyed as much as possible. To do this the rifles are well heated over a fire and smashed up with heavy hammers. Ammunition is destroyed by placing it in a deep pit and setting it on fire. Telegraph wires are cut up into small pieces and the poles cut down and broken up.—London Express.

Let Them Hunt For It.

A minister in a local church known for his absent mindedness by the members of his own family, but not to his congregation, saved himself from complete exposure at a recent service by his quick wit.

He had studied his sermon carefully, but had neglected to make any notations of the number of the chapter and verse from which the text was taken. In the pulpit he announced the text and then stopped short while the congregation waited to hear from what place in the Bible it was taken.

As he noticed absence of notes to this fact he quickly announced, "I'm going to give you a week to find from what chapter and verse this phrase was taken." So was exposure averted.—Columbus Dispatch.

Titles of Victor Emmanuel.

The author of "Rejected Addresses" preserved the name of a certain Mr. Pole, as the longest imaginable, in the well known lines:

Bless every man possessed of ought to give.

Long may Long Wellesley Tynley Long Pole live.

but Mr. Pole's name was as nothing to the titles of the king of Italy, many of which are derived from the older kingdom of Sardinia. Where his titles end it might be difficult to say, but they begin, king of Italy, Sardinia, France, Spain, England, Jerusalem, Greece, Alexandria and Hamburg, ruler of the midway sea, master of the deep and king of the earth.—Christian Science Monitor.

The Word Bible.

The word Bible is derived from the Latin name Biblia, which was treated as a singular, although it comes from the Greek neuter plural meaning "little books." This Greek diminutive was derived from byblos, or papyrus, the famous material on which ancient books were written. The title "Bible" was first used about the middle of the second Christian century in the so called second epistle of Clement, xiv, 2.

Little Children.

The influence of little children is to develop goodness in men and women. Their example teaches love, hope, faith, trust, contentment, joy, delight and cheerfulness, and quickly to forgive and forget unkindness. Injustice and injury received from others.

Demonstrated.

"Here's where I show my class," said the professor as he demonstrated the problem on the blackboard.—Dartmouth Jack O' Lantern.

It is difficulties which show what men are.—Epictetus

RESISTANCE OF RUSSIANS HAS BEEN SHAKEN

VICTORIES FOR THE TEUTONIC
ALLIES ALL ALONG EASTERN
BATTLE FRONT

Claimed in Austrian Official Report,
as Having Been Won on July
18 Against Large Forces.

(ASSOCIATED PRESS TELEGRAM)

Vienna, July 19.—(Via London, July 20.)—Victories of the Teutonic allies all along the eastern battle-front, on the 18th, shook the enemy's resistance, according to an official Austrian war office statement, issued tonight. The assertion is made that while the Russians brought up all the reinforcements available they were unable to hold their positions.

The text of the communication follows:

"In the Russian war theatre, the offensive of the allies in Poland and Volhynia (a government of Russia between Galicia and Russian-Poland), was continued Sunday, west of the Vistula, fighting proceeded on the IZANKA. Northwest of IZANKA, Austro-Hungarian troops captured some enemy positions.

"On the heights west of Krasnostav, German troops arrived victoriously after heavy fighting.

"Between Sierbsk and Grabovetz, in close touch with the Germans, we forced a crossing of the Volzha into the enemy's elevated positions, capturing there 3,000 prisoners.

"North Marovian and Silesian landwehr, after severe fighting, gained a firm footing on the east bank of the Bug. Troops, under General Kirchbach, captured twelve officers and 1,700 men.

"The successes of the allies on the 18th, along the entire front, shook the strength of the enemy's resistance. Although the enemy during the last few days has brought up all the reinforcements within reach, he has been unable to maintain his positions and has begun a retreat. On the night of the 18th-19th, he evacuated the battlefield.

"In East Galicia, the situation generally is unchanged."

PRISONERS

Numbering 15,000 Russians Have
Been Taken, Says Berlin Report.

(ASSOCIATED PRESS TELEGRAM)

Berlin, July 19.—(Via Amsterdam and London, July 20.)—Important successes for the Teutonic allies all along the battle line in Russia from the Baltic Sea to Bukovina, are claimed in an official statement issued today at the German war office. The army of General von Gallwitz is said to be standing in force on the Narew line southwest of Nowo Georgievsk, one of the arduous of fortresses which protect Warsaw, and only 10 miles from the Polish capital.

With the capture of Windau, the Germans have come into possession of another seaport on the Baltic and are within a few miles of Riga, seat of the governor-general of the Baltic provinces.

The German and Austrian forces are said to have taken 45,000 Russian prisoners.

The communication follows: "In the western theatre: In the district of Souchez, after a comparatively quiet day, fighting became more spirited during the night. A French attack against Souchez was repulsed and attacks south of Souchez were prevented by our fire.

"On the front between the Oise and the Argonne, there was vigorous artillery and mine fighting. Weak enemy attacks in the Argonne forest were unimportant.

"On the Meuse heights, southwest of Eparges and on the Tranchee, the fighting is proceeding with alternate successes. Our troops lost minor local advantages which they had claimed on the 17th, but captured three officers and 300 men.

"In the Russian war theatre: German troops occupied Tukum and captured Windau. (Windau is a seaport in Courland on the Baltic Sea at the mouth of the Windau river, 160 miles northwest of Mitau). Pursuing the enemy who was defeated on the Aa river, at Alant, our troops yesterday reached the district of Hofzumberge and northwest of Mitau, where the enemy occupied previously prepared positions.

"East of Popelany and Kurszany, the fighting continues.

"Between the Pissa and the Skwa, the Russians evacuated a position which had been penetrated at several points by our troops and are retreating toward the Narew. The German reserve landwehr fighting in this district of woody and marshy ground, which is extremely favorable to the resistance to the enemy, accomplished notable deeds.

"The army of General von Gallwitz, advancing further, now is standing with all its troops on the Narew line southwest of Ostrolenka and Nowo Georgievsk. (Nowo Georgievsk is a strong fortress about 10 miles northwest of Warsaw at the confluence of the Vistula and the Bug). The Russians, who did not find protection in their fortifications and bridge head positions already have retreated across the Narew. (The Narew joins the Bug at Sierock, 18 miles north of Warsaw). The number of prisoners taken by us has been increased to 101 officers and 28,760 men.

"In Poland, between the Vistula and the Pilica, the Russians are retreating eastward.
